

<b>Note: not all bikes are listed - we just can't measure all bikes out there. So...</b>						
<b>If your bike has two rear seat mounting bolts, one on each side of the seat, get the Style 1.</b>						
<b>If you have a newer KTM with the single under-seat bolt, get the Style 1 unless otherwise listed!</b>						
<b>If you see your same model, but a different year, chances are good the style listed will work.</b>						
<b>If you order and it doesn't work, send it back for a full refund.</b>
